### EXCESS HOURS ADVISORY STATEMENT

Section 1009.286, Florida Statutes, establishes an "excess hour" surcharge for students seeking Baccalaureate Degrees at public universities. It is critical that students, including those entering Florida College System institutions, are aware of the potential for additional course fees. For the 2012-13 academic year and thereafter, "excess hours" are defined as hours that go beyond 110% of the hours required for a Baccalaureate Degree program. For example, if the length of the program is 120 credit hours, the student may be subject to an excess hour surcharge for any credits attempted beyond 132 credit hours (110% x 120).

All students whose educational plan may include earning a Bachelor's Degree should make every effort to enroll in and successfully complete those courses that are required for their intended major on their first attempt. Florida College System students intending to transfer to public universities should identify a major or "transfer program" early and, by the time the student earns 30 semester hours of college credit, be advised of admission requirements for that program, including the approved common prerequisites. Course withdrawals and/or repeats, as well as enrollment in courses nonessential to the intended major, may contribute to a potential excess hours surcharge.

Please schedule an appointment with your advisor to create an academic plan that ensures you enroll only in courses needed for your program so that you can avoid extra costs when transferring to a public university.
